### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a memory cell array having a redundant circuit. The independent claims 1 and 3 recite a memory circuit having twisted bitline pairs, a shift processing circuit, identification means, determination means and inversion means. The PRIOR ART fails to disclose or suggest such a memory cell array having a redundant circuit as described in the independent claims 1 and 3, therefore, claims 1-3 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
